# Applying dynamic risk factors to specific case examples

## Background

- Take a few minutes to explain key highlights of a case you would like to review, including the client's:
  - Strengths
  - Demographics
  - Learning abilities
  - Demeanor/interaction style
  - Social/family connections
  - Type of offenses

## Needs

- What do you believe is necessary to address in helping this client?
- As a group, discuss the top two dynamic risk factors that are currently the greatest need for this client?

## Interventions

- What are some ideas for monitoring or mitigating these risk factors?

# Transfer from Institution to the Community

- What information is needed? What are the barriers to receiving this information?
- What are the expectations/timelines? Are these reasonable?
- What are the challenges in the community that offenders face within the first month of supervision? How is the institution preparing the offenders to handle this challenge? How is the community helping to prepare the offenders for reentry?
- What are the responsibilities of an agent with respect to sex offender supervision? What are the responsibilities of a treatment provider? How can one negotiate the overlapping and sometimes competing roles?

# Wrap-up

- What are you taking away from today?
- What would you like to cover at the next meeting?
